Syed Jakeer Hussain

Email ID: jhussainsyed94@gmail.com

Nationality: Indian

Mobile No: +91 9581249456

PROFESSIONAL SUMMARY:

- Having 7.8 **years** of total experience in **RPA tool (UiPath), VB6.0, MSAccess VBA, MS Excel VBA, VB.Net.**
- Having **3+ years** of relevant experience into **RPA UiPath**.
- Involved in the automation of different Web, Email, SAP, Windows-based applications used for managing the business process in an efficient way.
- Experience in building developing, implementing, customizing & supporting for both Web andWindows based business solutions.
- Experience in building **RPA** (Robotics Process Automation) solutions using **UiPath.**
- Having good Practice on implementing **RE Framework** architecture.
- Having good knowledge on activities for automation of SAP, Citrix in UiPath.
- Experience in creating PDD, SDD, BRD, SIT documents.
- Comprehensively contributed to all phases of the Software Development Life Cycle
- Having good experience in **VB6.0, VB.Net, Excel VBA and Access VBA.**
- Having good knowledge in creating **forms, linked tables, reports, macros, queries using MS Access VBA**.
- Having good experience on **Oracle (9i, 10g, 11g and 12c), SQL Server (2008, 2012 and 2014) and MS Access (2003, 2010 and 2013).**
- Having good knowledge in **Blue Prism on work queues with multi bot architecture.**
- Having good knowledge on **Excel Business Intelligence, Power BI.**
- Good knowledge on query optimization, views, stored procedures, Joins & Indexes.
- Proficient in all phases of SDLC such as Analysis, Design, Development, Integration, Maintenance
- Hands on experience in creating charts, dashboards, visualization, data blending, LOD.
- Good experience in dashboard designing with large volume of data from various data sources.
- Good experience on data manipulating, data mining, data extraction, transformation and load.
- Experience with working on macros for automation.
- Experience with working on **Waterfall** and **Agile development model.**
- Experience in **customer interaction/relationship**.
- Experience in **Documentation and peer reviews**.
- **Strong analytical skills, quick adaptability** to new technologies and domains.
- Co-ordinate with Onshore team to provide Daily status on the project and tasks.
- Have knowledge with the design and development of **Tableau** visualization solutions.
- Experience in creating dashboards, charts of analysed data for good visualization.
- Good knowledge on various domains such as **Retail banking, Property & Causality, Insurance, Health care and Finance.**

PROFESSIONAL EXPERIENCE:

- Working with Tech Mahindra Ltd from Sep 2021 till date
- Worked with EY GDS from May 2021 – Sep 2021
- Worked with Technosoft Corporation (Apexon) from Jul 2020 till May 2021
- Worked with SLK Software Pvt Ltd., from June 2018 – Jul 2020
- Worked with CG-VAK Software and Exports Ltd., from Aug 2016 - Oct 2017
- Worked with Unify InfoTech Private Ltd., from May 2015 - Aug 2016.

TECHNICAL SKILLS:

- **Operating Systems**   : Windows XP, Windows 7, Windows 8, Windows 10
- **Database**   : SQL Server, Oracle 9i, Oracle 10g, Oracle 12c, MS Access
- **Project Management**   : Team Foundation Server
- **RPA Tools**   : UiPath, Blue prism
- **Web Development**   : HTML, CSS, XML
- **Programming Languages**: ADO.NET, VB.NET, MS Access VBA, MS Excel VBA, VB6.0
- **Version Control Tools**   : GIT, TFS, SVN
- **Scripting Languages**   : VBScript
- **Development IDE**   : Visual Studio, VS Code
- **Reporting Tools**   : Crystal Reports
- **Business Intelligence**   : Tableau, Power BI, MS Excel
- **CI/CD Tools**   : Jenkins
- **Ticketing tools**   : TFS, Service now

PROJECT SUMMARY:
Assignment Project #1:
PROJECT TITLE: Safety Email Automation

ROLE: RPA Developer
CLIENT: Health Care Company
Application Used: UiPath, Excel

Description:

    Safety Department receives email in their inbox. BOT should read the email body, attached scanned files, extract the inputs, search the information from SharePoint and revert the email with appropriate information.

FEATURES:

- Automation helped in eliminating human errors and save time.
- Automation helped in improving efficiency by 3X times.

Assignment Project #2:
PROJECT TITLE: Web Scrapping
ROLE: RPA Developer
CLIENT: Pricing team
Application Used: UiPath, Excel

Description:
Pricing team needs data from a web site which consists of all manufacturer details with pricing by providing the part number. By proving the part number as input, data will get fetch of all manufacturers and the will team will do the analytics with output data.

FEATURES:
- 100% automation of the process achieved and over all 1 FTE of savings.
- Automation has helped in improving efficiency by 3X times.

Assignment Project #3:

PROJECT TITLE: SAP Due Date Report
CLIENT: Finance Team
Application Used: UiPath, Excel

Description:

Downloads the report from SAP T-Code and from other business application. Comparing the reports and sending the consolidated report with the due dates.

FEATURES:

- 100% automation of the process achieved and over all 1 FTE of savings.
- Automation has helped in improving efficiency by 3X times.

Assignment Project #4:

PROJECT TITLE: Accounts Payables Process
ROLE: RPA Developer
CLIENT: Finance (AP Team)
Application Used: UiPath, Excel

Description:

Accounts Payable Finance team receives receipts from vendors, check GST no. & HSN No. with oracle matches the amount and initiated the invoice.

FEATURES:

- Automation helped in eliminating human errors and save time.
- Automation helped in improving efficiency by 3X times.

Assignment Project #5:

PROJECT TITLE: Depreciation Process

ROLE: RPA Developer
CLIENT: Finance Team
Application Used: UiPath, Excel

Description:

Accountants close the monthly ledger entries for different regions. Automation helps to open application, read the data from SharePoint, open the appropriate ledgers, close the period, save the receipts, send email to region related accountant.

FEATURES:

- Automation helped in eliminating human errors and save time.
- Automation helped in improving efficiency by 3X times.

Assignment Project #6:

PROJECT TITLE: SAP Automation

ROLE: RPA Developer
CLIENT: Finance Team
Application Used: UiPath, Excel

 Description:

    Login into SAP application, entering the T Code, downloading the information in excel, excel manipulation to get the expected results, forward the email with the attachment to the finance team every day.

FEATURES:

- Automation helped in eliminating human errors and save time.
- Automation helped in improving efficiency by 3X times.

Assignment Project #7:

PROJECT TITLE: Win 10 Compatibility Assessment

ROLE: Data Analyst
ENVIRONMENT: MS Excel, MS Access, Visual Studio, Tableau, Microsoft AzureTEAM

 Description:

    As windows 7 supports is going to end by January 14, 2020. This project is all about compatibility assessment and analysis of standard and business applications for windows 10. Customer wants to upgrade all the windows 7 machines to windows 10. Prior to upgrade, we need to certify and provide the information through visualization that number of systems ready to upgrade, number of systems not ready to upgrade based on compatibility assessment of standard and business applications. Pulling all data from azure in a phase wise and analyzing data doing the data analytics. This shows results ofsystem wise, application wise, user wise, region wise ready to upgrade and not ready to upgrade for windows 10.

ROLES AND RESPONSIBILITIES:

- Pulling data from azure through queries.
- Filtering unique applications for assessment.
- Creating dashboards, charts, data visualization from the raw data.
- Merging in a single sheet for all the standard applications.
- Code screening for all the business applications using visual studio, eclipse, notepad++.
- Assessment for all the standard applications.
- Providing accurate details for the compatibility report for standard and business application.
- Reaching vendor blogs and web sites for collecting data for compatibility.
- Extensive use of Excel to speed up the analysis process.
- Look for mapping changes in each sprint and work on the deliverables accordingly.

Assignment Project #8:

PROJECT TITLE: Genesis Container System
ROLE: Software Developer
ENVIRONMENT: MS Excel, MS Access VBA, Macros
TEAM SIZE: 2

Description:

   A desktop application that handles PO, Sales Orders, Container bookings, Shipment assignments up to finance data maintenance. This is mainly to handle some product purchase, sales and exporting and then tracking the goods.

ROLES AND RESPONSIBILITIES:

- Design and developing the forms for the new requirement
- Developed the modules for better ease of the software to the end users
- Analysing requirement document, estimate, develop and unit test the forms.
- Co-ordinate with the development team to resolve the reported issues.

Assignment Project #9:

PROJECT TITLE: Call manager
ROLE: Software Developer
ENVIRONMENT: Microsoft VB 6.0, MS SQL SERVER
TEAM SIZE: 3

Description:

   A desktop application that shows the candidates data based on entered dates for taking interview and updating the feedback.

ROLES AND RESPONSIBILITIES:

- Design and developing the forms.
- Developed the modules for better ease of the software to the end users.
- Analysing requirement document, estimate, develop and unit test the forms.

Assignment Project #10:

PROJECT TITLE: Jewellery system management application
ROLE: Software Developer
ENVIRONMENT: MS Excel, MS Access, Visual Studio, .Net framework 4.5, VB.NET, SQL SERVER 2015
Description:

This VB.Net windows application takes care of all the possible operations that can be automated. This application was developed initially in VB 6.0 with MS Access as backend and now it is being upgraded to .Net framework 4.5, with MS SQL server as backend. This application automates theinventory area (PO, Purchase, Sales, stock adjustment, Repair management, Certificate creation, and Article reservation etc. with related masters), Finance area (invoice, payment, credit notes, debit notes etc.) and payroll area (staff management, attendance, leave details, salary calculation, etc.). User could get useful managerial information from these data - sales range graph, period wise pending invoice payments, staff efficiency graph, staff/customer commission etc.

ROLES AND RESPONSIBILITIES:

- Designing and development on Set Article, Certificate creation, Invoice creation forms.
- Analysing requirement document, estimate, develop and unit test the forms.
- Co-ordinate with the development team to resolve the reported issues.
- Co-ordinate with Onshore team to provide Daily status on the project and tasks.

EDUCATIONAN QUALIFICATION:

Degree	Institute	Year
Bachelor of Technology (CSE)	Madina Engineering College, Kadapa	2014
BIE	Narayana Junior College, Kadapa	2009
SSC	Nagarjuna High School, Kadapa	2007

PERSONAL PROFILE:

Name: SYED JAKEER HUSAIN
Date of Birth: 04-Aprl-1992
Marital Status: Married
Languages Known: English, Hindi and Telugu.
Place: Bangalore
